**Do you know Akihabara@DEEP?**

They are manufacturing games and figurines that look stellar to other companies aren't they?

And seems like a girl named Akira's role as the main figurine model wasn't really good, right? Hahahaha

I heard they are trying to establish the company with the name Akihabara@DEEP.

I also heard that Fage, who 4 years ago had a cyber criminal record, joined them.

This is fine! Whatever the otakus do won't be a big deal!

Maybe, they're just drunk! Hahaha!

But, seems like they're beginning to produce something great, huh?!

I hope they will make great games and figurines! Akira's so CUTE!

Isn't Akibabara>PEEP taking too much time preparing for their next releases?

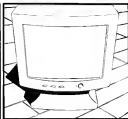

I'm a little bit concerned about it.

CAN'T WAIT FOR THEIR NEXT RELEASES!!
